been accepted.

a. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a flavanone compound and useful compositions containing it, classified in class 549, subclass 403.
- II. Claims 11-19, drawn to compositions containing at least one flavanone compound selected from nymphaeol-A, nymphaeol-B and nymphaeol-C, classified in class 514, subclass 456.

The inventions are independent or distinct, each from the other because:

The compound of the Gp. I is not present in the compositions of Gp.II.

Applicants elected Gp. I without traverse. Non-elected claims 11-19 are withdrawn from consideration.

The elected claims were examined and found to be allowable.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dockery on 4-2-2007.

Claim 1, line 1, After "A" - - substantially pure - - has been inserted.

Claim 1, line 1 after "compound" "comprising a" has been changed to - -having the- -.

Non-elected claims 11-19 have been cancelled.

The following is an examiner's statement of reasons for allowance: The instant pure compound which is present in bee propolis and has never before been isolated is novel and unobvious. It has useful unobvious properties which make it useful as an antibacterial, antioxidant, etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
